MORTAR RAKING

DESCRIPTION: Our popular entry level mortar raking blade is more than a match for some premium blades and is available in four useful segment widths: 4, 6, 8 and 10mm. Use in conjunction with the EVORAKE bit for perfect results.

FEATURES: Available in 4, 6, 8, and 10mm wide diamond segments..

MACHINE SUITABILITY: Electric and cordless angle grinders.

STANDARDS:

- EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

DIAMOND BLADE TIPS:

- Make certain the blade is suitable for the material before cutting.
- Guide the blade straight into the material.
- Do not use unnecessary pressure, the weight of the machine is sufficient.
- If cutting speed reduces you can re-sharpen (dress)
- Mortar raking creates a large amount of airborne dust. It is strongly advised that a machine with a fitted dust extraction guard is used, and coupled to a dust extraction unit, with a minimum specification of 'M class'. This is in addition to wearing the full and appropriate PPE.

PACKAGING DETAILS:
