**DESCRIPTION:** Premium wood cutting TCT blades for use on mitre saws and chop saws. Manufactured using high grade carbide teeth for long life and precision hardened steel plates for maximum stability.

**FEATURES:** Premium quality TCT teeth, ATB -6°

**MACHINE SUITABILITY:** Mitre and chop saws.

**USER TIPS:**

- Ensure that the cutting depth of the machine is set correctly for the material being cut
- Do not force the cut. Let the blade and machine do the work
- Always ensure that the blade is suitable for your machine type. Using a blade designed for another machine type could be unsafe
- Make certain that the blade is suitable for the material being cut
- The higher the tooth count, the cleaner the cut and the lower the tooth count, the faster the cut.
