

P5-MD

SPEC SHEET

DESCRIPTION: These high quality multi-use titanium drills have been designed to offer rapid drilling through a variety of materials such as plastics, wood, tiles, bricks, blocks, aluminium, laminates, glass, iron and copper.

Not for use on porcelain.

GT10580 Set comprises: 5.5mm, 6mm, 7mm, 8mm, 10mm & 12mm drills.

FEATURES: Ultra sharp, titanium coated tip for increased performance and unique 4-way cutting edge to reduce snagging.

MACHINE SUITABILITY: Cordless and corded drills.

USER TIPS:

- Use percussion action for faster drilling through building materials, such as bricks and blocks
- Percussion action is not recommended (or needed) for drilling through tiles, plastics, wood and other non-building materials
- Do not use unnecessary pressure, the weight of the machine is sufficient. When drilling metals, it is recommended to use an appropriate lubricant. Use at speeds between 800 - 2000rpm
- For harder tiles use a slower rpm / for softer tiles use a faster rpm

PACKAGING DETAILS:

Nylon packs - not yet recycled. (SET)

PACKAGING DETAILS:

Polypropylene Plastic PP5 Blister Pack - fully recyclable. (INDIVIDUAL)

PRODUCT DETAILS:

Part No.	Dimensions
GT10510	5 x 60mm
GT10515	5.5 x 70mm
GT10520	6 x 70mm
GT10530	7 x 80mm
GT10535	8 x 80mm
DP16345	10 x 90mm
GT10535	12 x 100mm
DP16345	6 Piece Set

IDEALLY SUITED OCCASIONAL USE

MATERIAL	IDEALLY SUITED	OCCASIONAL USE
ALUMINIUM	Yes	No
ASPHALT	No	No
ASPHALT OVER CONCRETE	No	No
BRICKS - CLASS A ENGINEERING	No	Yes
BRICKS - CLASS B ENGINEERING	No	Yes
BRICKS - STANDARD FACING BRICKS	Yes	No
