

STB-10

SPEC SHEET

BUILDING MATERIALS

DESCRIPTION: Designed to cut popular building materials fast and efficiently. Offers superb value for money on a cost per cut basis. Ideal for costing in to small jobs or if the application cannot be controlled on large sites.

FEATURES:

- 10mm High segments
- Value for money.

MACHINE SUITABILITY: Angle grinders, wall chasers and hand held saws.

STANDARDS:

- EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

USER TIPS:

- Make certain the blade is suitable for the material before cutting.
- Do not use unnecessary pressure, the weight of the machine is sufficient.
- Carry out a slight forwards and backwards pendulum movement when cutting
- If cutting speed reduces you can re-sharpen (dress) diamond segments by making several cuts into a highly abrasive material such as a 3-Newton concrete or cinder (breeze) block.

PACKAGING DETAILS:

Full colour corrugated cardboard box.
