

DESCRIPTION: Premier Diamonds heavy-duty 16L dust control water tank comes complete with 3M hose and fittings for easy connection to Stihl, Husqvarna, Makita and other popular makes of disc cutter. Using our dust control tank reduces the risk of inhaling respirable crystalline silica (RCA) dust when cutting concrete and other construction materials - see HSE construction sheet No 54 for full details.

FEATURES: Support spring to stop hose kink, pressure relief valve, strong pump, carry strap, fully assembled and packed in a heavy-duty cardboard box with information leaflet.
