STANDARDS:

- EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.
- ISO9001:2010 Quality Management System: Standard designed to help ensure organizations meet the needs of their customers.

MULTI DRILL TIPS:

- Use percussion action for faster drilling through building materials, such as bricks and blocks
- Percussion action is not recommended (or needed) for drilling through tiles, plastics, wood and other non-building materials
- Do not use unnecessary pressure, the weight of the machine is sufficient
- When drilling metals, it is recommended to use an appropriate lubricant
- Use at speeds between 800 - 2000rpm
- For harder tiles use a slower rpm / for softer tiles use a faster rpm
