TILE GROUT & ADHESIVE REMOVAL	<input type="checkbox"/>
WOOD - CLEAN HARDWOOD	<input type="checkbox"/>
WOOD - CLEAN SOFTWOOD	<input checked="" type="checkbox"/>

DESCRIPTION:

The fine teeth and offset design ST-MTB-FT, make it ideal for clean, controlled cuts, when plunge cutting, flush cutting and trimming materials such as wood, plastic and other soft materials.

FEATURES:

- Made from High Carbon Steel (HCS)
- Ideal for Plunge Cutting
- Clean, Detailed Cuts

MACHINE SUITABILITY:

Universal Fitting – Fits most brands of machine

USER TIPS:

- Always wear the appropriate PPE
- Ensure you select the correct blade for your task
- Avoid using excess pressure when cutting. Trying to force the blade to cut will reduce the speed of cut and overheat the blade
- Excessive heat build-up can damage the blade. Using the full width of the blade when cutting can help to dissipate the heat, and prolong the life of the blade
- When cutting round objects such as waste pipe, select a wider blade than required to reduce the risk of the blade slipping during the cut
- To achieve clean, straight cuts, when plunge cutting, use a straight edge to support and guide the blade. Use a slight rocking motion to reduce surface resistance and increase the speed of cut

PRODUCT DETAILS:

PART NO.	BLADE WIDTH	WORKING LENGTH	PACK QTY	BLADE MATERIALS	MATERIAL APPLICATION
GT42103	34mm	40mm	3	HCS	Clean Wood & Plastic
GT42105	34mm	40mm	10	HCS	Clean Wood & Plastic
GT42107	44mm	40mm	3	HCS	Clean Wood & Plastic
GT42109	68mm	40mm	3	HCS	Clean Wood & Plastic
GT42111	68mm	40mm	10	HCS	Clean Wood & Plastic

PACKAGING DETAILS:

Full colour corrugated cardboard box.

Widely Recycled
