

ST-DC-9 & ST-DC-12 SPEC SHEET

DESCRIPTION: The SiteTuff range of dry core drills are designed for use on the most common UK construction materials, including facing bricks and concrete blocks. The counter clockwise spiral on the core body is designed to assist in the dispersal of debris whilst drilling, helping to reduce the risk of the core jamming in the hole.

FEATURES:
ST-DC-9 comprises of: 3 cores and 6 accessories.
Cores: 38mm, 52mm and 117mm.
Accessories: Chuck and SDS adaptors, 1/2" female to 1/2" male 200mm extension, A-taper pilot drill, guide rod and drift key, providing everything you need to start dry diamond coring.

ST-DC-12 comprises of: 5 cores and 7 accessories.
Cores: 42mm, 52mm, 65mm, 117mm and 127mm.
Accessories: Chuck and SDS adaptors, chuck and SDS extensions, A-taper pilot drill, guide rod and drift key, providing everything you need to start dry diamond coring.

MACHINE SUITABILITY: Dedicated dry diamond core drill or SDS machine with rotary only function.

- USER TIPS:**
- Ideally, use a dedicated dry diamond core machine with variable speed control and a slipping clutch
 - No hammer action
 - For harder materials and larger diameter cores use a slower RPM: for softer materials and smaller diameter cores use a faster RPM
 - Clear debris from the hole at regular intervals to prevent the core from binding in the hole
 - Do not force the core, let it do the work

PRODUCT DETAILS:

Part No.	Description
DC12864	5 Piece Set c/w 7 accessories
DC12876	3 Piece Set c/w 6 accessories

PACKAGING DETAILS:
Full colour corrugated cardboard box.
